Harst Logics IT Services

We Make IT Happen

Company Overview: Background and Development

In today's increasingly technology driven marketplace, it is critical to keep up with the latest innovations and solutions, in order to make the most of your investments and keep your business moving forward. So whether you are new to working with an IT Partner, or have worked with one for years, with Harst Logics IT, you will find cost-efficient support, guidance and the inspiration you need to provide your business with a competitive advantage.

Harst Logics is a full-service solution provider. Our head office is located in Nairobi, Westlands and we support remote sites across multiple continents. We place our focus on leveraging our infrastructure and footprint to support a broad spectrum of organisations with rapid deployment and emerging technologies.

Over the years, Harst Logics IT has evolved into an advanced solutions provider, focused on servicing customers and creating value through long term relationships that we build. We have established unique service level agreements (SLA's) and fixed costs based on our customers' needs and budget.

We strive to deliver more efficient, effective and relevant quality services and solutions tailored to the increasingly complex demands of organisations, in order to boost productivity of operations and to maximise value for our customers.

Harst Logics IT also strives towards technology that provides a real advantage to a business. The most powerful connection that a business can make is through all its stakeholders. Harst Logics IT binds together business and technology

Let us handle your IT

Harst Logics IT provides solutions that enable business and empower our customers with:

1. Enable you to focus on your business by providing a practical IT solution by creating an environment for success.

2. Minimise risk of data loss, downtime, security threats and provide redundancy at the same time, by ensuring your business operations continue through virtualization and automation.

3. Improve overall customer service and satisfaction, by ensuring you have the infrastructure in place to continuously engage with your customers.

4. Cut operational costs with tailor-made strategies and solutions by assisting you to create (or update) your IT strategy.

5. Increase communication between all stakeholders which is essential with all the current dynamic businesses challenges that all businesses face today such as globalisation and increased worker mobility.

"Technology is not just about speeding up the process and allowing flexibility, but it can transform how a business functions and will save a company time and money if implemented and maintained properly."

Harst Logics IT Business

Harst Logics IT is dedicated to doing business in an ethical and sustainable manner to meet the needs of avast range of businesses and industries. Harst Logics IT's businesses range from small and medium enterprises (SMEs) to large global enterprises.

We combine our industry knowledge, expertise and best practice with our clients' needs to design and develop tailor-made solutions dependant on your requirements. We recognise that people are part of IT and that the effective combination of these two, contributes to the success of any business.

"As an advanced technology service provider, we keep abreast of the latest technology to securely enhance your business. Our in-depth knowledge and expertise ensure we are able to provide guidance as to what is possible, practical and cost-efficient."

Harst Logics IT WorkPlace

At Harst Logics IT there is a focus on skills and development. We are dedicated to unlock the potential of all our employees through continuous skill development and in-house training. With the skills development of all our employees, we foster a productive and vibrant workplace in order to accelerate growth.

Harst Logics IT's ever increasing workforce is aligned with its rate of growth and is continuously focused on the latest technology to improve the quality of all services and products that we offer.
